

Séminaires de recherche scientifique

Lecturers

Isabelle PIRSON (Coordinator), Véronique FLAMAND and Mariana IGOILLO ESTEVE

Course mnemonic

BIME-G5502

ECTS credits

15 credits

Language(s) of instruction

French

Course period

First and second terms

Course content

The scientific seminars which the student will have chosen to attend, organized on various campus of the University by the research teams.

Objectives (and/or specific learning outcomes)

Exercise of the critical mind and enrichment of the general knowledge by the participation to scientific seminars given by professional researchers in different fields working in international laboratories.

Teaching method and learning activities

Ex cathedra presentation followed by discussion with questions/ answers.

Contribution to the teaching profile

Education of the student to scientific communication in international research.

References, bibliography and recommended reading

Published papers of the speaker for general information

Other information

Contact(s)

Isabelle Pirson

Evaluation method(s)

Other

Evaluation method(s) (additional information)

Evaluation is done by the GEM (Evaluation group of the Master thesis) considering general scientist knowledge of the students based on the list of seminars they have attended.

Determination of the mark (including the weighting of partial marks)

Mean of the notes of the GEM five members
