

Chimie organique 3

Lecturers

Cécile MOUCHERON (Coordinator) and Cédric Theunissen

Course mnemonic

CHIM-F301

ECTS credits

10 credits

Language(s) of instruction

French

Course period

First term

Course content

Discussion of the theories responsible for the properties of the organic compounds, Discussion of pericyclic reactions , rearrangements, carbenes, radicals,...

Objectives (and/or specific learning outcomes)

Discuss new classes of reactions and new classes of compounds

Pre-requisites and co-requisites

Co-requisites courses

CHIM-F204 | Chimie organique 2 | 10 crédits

Teaching method and learning activities

Ex-cathedra courses and practical training

References, bibliography and recommended reading

"Organic chemistry", Clayden et al., Ed.Oxford

Other information

Contact(s)

Cécile Moucheron 02/6503607 cmouche@ulb.ac.be Service de chimie organique et photochimie CP160/08 Local P2-3-108

Evaluation method(s)

Other

Evaluation method(s) (additional information)

Oral examination for the theoretical part. Discussion, reports and written examination for the practical part.
