GEST-S519

## Crédits ECTS

5 crédits

## Langue(s) d'enseignement

Anglais

## Période du cours

Premier quadrimestre

## Campus

Solbosch

## Contenu du cours

Lectures by the Coordinator (and eventually other speakers) on:

- > Rationales for regulation.
- > Regulation vs competition policy vs industrial and innovation policies.
- > Business and its environment. Digital technologies.
- > Law & Economics and business.
- > Pharmaceuticals and the economics of innovation.
- > Cost-Benefit Analysis.
- > Regulation of Artificial Intelligence.

## Objectifs (et/ou acquis d'apprentissages spécifiques)

This course links the principles of the economics of regulation (and competition policy) with the European regulatory environment in which businesses must operate.

An important learning objective is also that students develop the viewpoints of different stakeholders.

## Méthodes d'enseignement et activités d'apprentissages

Lectures. Discussions with students (including mandatory readings).

Guest lecturers might be considered.

## Contribution au profil d'enseignement

Critically assess the potential solutions to make informed decisions.

Bring together various strands of economic analyses (basic microeconomics, information economics and game theory and public economics) together with institutional knowledge.

Address problems systematically to ensure a scientific approach.
