Période du cours

Deuxième quadrimestre

Campus

Flagey et Hors campus ULB

Contenu du cours

This course unfolds theoretical and practical questions relating to urban planning, urbanism and landscape project. It attempts to bridge theoretical questions about urban planning with the contemporary practice of urbanism in the Brussels Region.

Objectifs (et/ou acquis d'apprentissages spécifiques)

The student will acquire specific knowledge concerning the contemporary theory and practice of urban planning, urbanism and landscape project. It will get an overview of the different planning tools and institutions concerned with urban planning and urban transition in Brussels.

Méthodes d'enseignement et activités d'apprentissages

The course will consist of thematic lectures and seminars. A first part of the course will be coordinated by Geoffrey Grulois on specific questions of urban planning and urbanism. A second part of the course and lecture will be organized as part of the "chaire perspective at ULB" on a specific theme relating to contemporary questions of urban planning in Brussels. This second part will be partly given in the Perspective office (rue de Namur 59) and in specific sites in relation to visits. For the academic year 2023-24, the chaire perspective will be dedicated to the theme of "student life". Each academic year, the thematic of the chaire perspective is articulated to the thematic of the atelier d'urbanisme (URBAP9006).

Contribution au profil d'enseignement

This course will feed the core question of contemporary urban planning and urbanism theory and practice.

Références, bibliographie et lectures recommandées

During the lectures and seminars, various literature will be proposed by the coordinator of the courses and the lecturer.
