Course content

The course is divided into theory (2 ects) and exercises (3 ects).

Objectives (and/or specific learning outcomes)

Objective: to offer students the methodological bases in order to conduct a research in political science.

Intended learning outcome:

- > To discover what is research in political science
- > To learn how to design and conduct a research in political science
- > To learn how to read and understand the research process of academic literature
- > To acquire essential competences for all academic work

Teaching method and learning activities

Equilibrium between theory & exercices, explanation and application
