

Project in physics engineering

Course mnemonic

PROJ-H403

ECTS credits

5 credits

Language(s) of instruction

English

Course period

Academic year

Campus

Outside campus ULB

Course content

individual project typical of a first mission given to a newly graduated engineer

Objectives (and/or specific learning outcomes)

Allow the student to face a first project typical of what is expected from a young engineer

Teaching method and learning activities

project completed either as an internship before the start of the academic year, or through regular meetings with the mentor during the year

Other information

Place(s) of teaching

Outside campus ULB

Contact(s)

pierre.etienne.labeau@ulb.be

Evaluation method(s)

Other

Evaluation method(s) (additional information)

written report + oral presentation

Main language(s) of evaluation

English
