

Projet interdisciplinaire

Lecturers

Thomas BAULER (Coordinator), Wouter ACHTEN and Maria MANCILLA GARCIA

Course mnemonic

ENVI-F501

ECTS credits

5 credits

Language(s) of instruction

French

Course period

Academic year

Course content

Each year a general theme is chosen, on which the students are invited to achieve 2 kinds of works; First a disciplinary work on a limited topic pertaining to the theme. Second, an interdisciplinary work on some selected topics from the 1st stage. Experts are invited in order to document some aspects of the theme. A wiki website is elaborated on which the students exchange their references. At the end, the best works are transmitted to experts in the field.

Objectives (and/or specific learning outcomes)

Learning to work in a group (approx 6 to 10 people) in an organised manner, and for scientific purposes. Sharing and elaborating information in an interdisciplinary way. Learning the richness of the inputs coming from each disciplines.

Pre-requisites and co-requisites
