Objectives (and/or specific learning outcomes)

The main objective of the course is to provide students with in-depth knowledge of the decision-making processes of the European Union (EU). The course is divided in three parts.

- The first section deals with the fundamentals of the EU, its nature and theories of European integration.
- The second part introduces the three branches involved in EU decision-making (executive, legislative, judicial). This section will cover EU actors' and institutions' roles transversally.
- The third section examines decision-making procedures and modes of EU governance.

This course is a prerequisite to understand integration/disintegration and cooperation in the EU, the role of the main institutions and how decisions are made. It is designed both for students who plan to work in the EU bubble, in institutions and organisations at the regional, national or European level and those who aim to undertake a research in European studies.

Students are highly recommended to read newspapers and follow closely and regularly current affairs in European politics.

Upon successful completion of this course, students will acquire the following knowledge and skills:

- good knowledge and understanding of the different stages of the EU integration process;
- in-depth knowledge and understanding of the roles and organisation of the EU's main institutions; ability to explain their powers; a good understanding of the inter-institutional relations and the interaction of the EU institutions with the other political and social actors at the European level;
- an ability to analyse and explain the relations between member states and EU's supranational institutions as well as the dynamics of cooperation and conflict between EU institutions;
- a good knowledge and understanding of the decision-making processes at the EU-level and ability to explain different decision-making methods and modes of governance.
- skills and ability to critically and analytically analyse and discuss issues related to European integration and major turning points in this process
- a thorough understanding of the main controversies related to the EU integration process.
- A good understanding of the following transversal concepts/ topics: integration, governance, intergovernmental, supranational, spillover, preferences, modes of governance, sovereignty, policy coordination, consensus, political regime, critical juncture, crisis, politicisation, depoliticization etc.
