Course content

Training period I of the professional determination, it aims to deepen the practical training of the students through their active integration in a professional environment. The practical works in professional training represent the academic supervision of the students.

Objectives (and/or specific learning outcomes)

The objective is to place the student in a professional situation. He has to prove his capacity to apply the taught knowledges.

Pre-requisites and co-requisites

Course having this one as pre-requisit

PSYC-E537 | Stage II et supervision en psychologie sociale et interculturelle | 15 crédits

Teaching method and learning activities

Practical intellectual works of professional training (60 h/period) are organized and supervised by a scientific trainer. Every training period leads to a written report, controlled by the trainer. The location of the training periods has to meet the specific criteria of the Master cursus. The students have to inform the scientific trainers before starting upon some steps in search of a suitable location, and the project has to be accepted.
