Brussels School of Engineering

BA-IRCI | **Bachelor in Engineering Sciences** | option Bruxelles/unit 2

Course content

There are no courses. The project consists in designing and implementing a technical device based on scientific knowledge of the BA2 level. The work is done in groups of 6 students.

Objectives (and/or specific learning outcomes)

The multidisciplinary project II teaches and tests higher cognitive skills. It gives the student a measure of responsibility and allows for the application of knowledge.
