Course content

Participation to workshops where invited researchers describe their work and engage into discussion with the students. Texts framing the subject are made available beforehand. In turn, each student will, like the invited researchers, present the research undertaken within the preparation of the master's thesis.

Objectives (and/or specific learning outcomes)

Expose students to the diversity of problematics and research methods. By meeting with researchers and teams, by understanding their projects, their methods, their theoretical frameworks and the difficulties they encounter, students gain

Evaluation method(s)
