Sciences and technics / Sciences and technics

Campus

Charleroi Ville Haute

It is basically the most general BA course in the French-speaking Region of Belgium

For most courses you will have at your disposal:

- > a specialist laboratory.
- > the different faculty libraries as well as the university central libraries, especially the scientific and technical library.
- > computer rooms.

Teaching methods

As from the first block, teaching methodologies range from classical courses to projects, including exercise and laboratory sessions.

Succeed in your studies

Choose

The information and guidance counsellors at the InfOR-études [<https://www.ulb.be/en/studies-info-desk-1>] service will help you choose your studies throughout the year.

Succeed

Take part in preparatory courses [<https://www.ulb.be/en/studies-info-desk-1>] or get help to succeed [<https://www.ulb.be/en/studies-info-desk-1>] , before or during your studies.

Get help

Apply for financial aid, look for accommodation or a student job, get support [<https://www.ulb.be/fr/aides-services-et-accompagnement/aid-services-and-support-1>] for your specific needs.

International/Openness

The Erasmus exchange programme usually takes place during the master's course. However, there are bilateral agreements (double

Programme objectives

Fulfill your ambitions by gaining a grounding in the different aspects of engineering: creating, designing, producing, optimising, securing. You will develop skills ranging from scientific rigour to practical work. You will learn both know-how and interpersonal skills.

Programme's added value

A « multitechnical » approach that enables you to gain an insight into all the theoretical and applied aspects of this field.

A very comprehensive course with a particular focus on individual study and with lectures only making up one element of the course.

degree agreements) enabling you to study abroad from the 3rd block of the bachelor's course to the end of the 1st block of the master's course.

Some of the subsequent masters in engineering are organised jointly with VUB in English

Job opportunities

If you go on to do a Master in Civil Engineering, you will be able to work in the following areas:

- > Corporate engineer
- > Consultant engineer
- > Research engineer

- > Production engineer
- > Engineer in a technical consultancy department.

You could also do research in applied sciences: constructions, chemistry, science of materials, physics, electricity, mechanics, information technologies, biomedical sciences
