Campus

Erasme

Take part in preparatory courses [<https://www.ulb.be/en/studies-info-desk-1>] or get help to succeed [<https://www.ulb.be/en/studies-info-desk-1>], before or during your studies.

Get help

Apply for financial aid, look for accommodation or a student job, get support [<https://www.ulb.be/fr/aides-services-et-accompagnement/aid-services-and-support-1>] for your specific needs.

International/Openness

You will have the opportunity to take part in the Erasmus exchange program organised by the School of Medicine.

Job opportunities

With a Master in Biomedical Sciences, you will be able to join research teams working in diverse research fields, such as medical biology or genetics, immunology, neurosciences, cancerology, microbiology, toxicology, etc...and participate in the biomedical research aiming at the development of new diagnostic or therapeutic technologies.

Programme objectives

Fulfil your ambitions by gaining a command of the concepts and techniques of human biology with a particular focus on pure or applied medical research aiming at the development of new diagnostic or therapeutic tools.

Succeed in your studies

Choose

The information and guidance counsellors at the InfOR-études [<https://www.ulb.be/en/studies-info-desk-1>] service will help you choose your studies throughout the year.
