Master in Biochemistry and Molecular and Cell Biology
Focus Teaching

Programme mnemonic
MA-BMOL
Focus Teaching: M-BMOLD

Exists also in
Focus Research: M-BMOLA
Focus Research (Charleroi): M-BMOLC

Studies level
Master 120 credits

Learning language
french

Schedule
office hours

Studies category / subcategory
Sciences and technics / Agronomy and bioengineering

Campus
Plaine and Solbosch

Programme objectives
The Master programme provides fundamental courses in biochemistry and molecular and cellular biology (90 credits) in the following disciplines:

- Molecular biology of the cell (cell growth and signaling, internal organisation and physiology, molecular biology of the gene)
- Molecular biology of multicellular organisms (immunology, developmental biology, neurobiology)
- Molecular microbiology (bacteriology, virology, parasitology)

In addition, students must choose one of two focuses (30 credits):

- The research focus provides additional courses in bioinformatics and structural biology, as well as additional practical training in the department’s research laboratories or optional course from the entire University catalog. In addition to the master thesis, this cursus also offers the possibility to perform a 10 week-traineeship in a distinct laboratory.
- The teaching focus is intended for future teachers, with active and passive courses as well as work placements.

Both focuses allow students to pursue a PhD programme.

Programme's added value
Starting in the first year of the Master programme, students have access to a wide range of experimental approaches in the department’s various research laboratories (5-10 credits).
In addition, they are encouraged to analyse original scientific articles and are trained for scientific writing and communication tools.

In the second year, students are expected to attend many seminars and take part in journal clubs. Each student must also give a seminar on their Master’s dissertation.

During the second year, students have an opportunity to take part in an exchange programme, by completing a research work placement (in a foreign country or in Belgium, in a university or a private company).

While they complete their dissertation, students may attend professional training sessions related to their research topic, offered by the ‘Biopark training unit’.

The research programme on molecular biology was developed at ULB in the 1960s, and has since earned an international reputation.

Classes are given by several researchers from the Biopark, located in Gosselies, near Charleroi. The Biopark is a centre of excellence in molecular biology, hosting 700 researchers with expertise on a wide array of topics. The Biopark includes academic departments, spin offs, and pharmaceutical companies, on a campus that offers attractive possibilities for research-intensive programmes.

The department of molecular biology has concluded several partnerships with research institutes (IMI) and centres (CMMI).

Teaching methods
- Regular classes (35-40%, depending on electives)
- Practical training activities in research laboratories (15-20%, depending on electives)
- Computer-aided training in bioinformatics and structural biology (2% in the research focus)
- Personal assignments (15%, including writing laboratory reports and journal club presentations)
- Master’s dissertation: students are required to conduct original research projects in faculty laboratories, and to attend and host research seminars
Succeed in your studies

Choose
The information and guidance counsellors at the InfOR-études [https://www.ulb.be/en/studies-info-desk-1] service will help you choose your studies throughout the year.

Succeed

Get help
Apply for financial aid, look for accommodation or a student job, get support [https://www.ulb.be/fr/aides-services-et-accompagnement/aid-services-and-support-1] for your specific needs.

International/Openness

1st year: Erasmus exchange programme (for 1 or 2 terms)
2nd year: opportunity to complete the work placement and/or dissertation in a foreign country.
Active participation of teachers from the Centre of Microscopy and Molecular Imaging (CMMI)

Job opportunities

Scientific research (in companies, universities, hospitals, etc.)
Training (teaching biology or chemistry in school) or continuing education
Management and/or communication in the fields of health, biotechnologies, food processing, clinical research, quality control, etc.
Graduates in BBMC can pursue the following careers:

- Research in private companies (pharmacology, biotechnologies, food processing, etc.)
- Academic research (universities, high schools)
- Teaching in secondary schools or higher education institutions
- Continuing education
- Communication and/or scientific publishing
- Forensic science analysis
- Organising science outreach or awareness activities
- Scientific counselling for products within a company
- Quality control (hospitals, private companies, public QC services, etc.)
- Monitoring analyses in the fields of biodiversity, bioremediation, biosafety, etc. (services of control of quality, ...
- Person in charge of monitoring analyses in the fields of biodiversity, bioremediation, biosafety, ...

Jury President
Laurence VAN MELDEREN

Jury Secretary
Guillaume OLDENHOVE
Bloc 1 | M-BMOLD | MA-BMOL

Tronc commun

BMOL-F007  Lectures d’articles en biologie moléculaire | Fabienne ANDRIS (Coordinator)
5 credits [project: 80h]  second term  French

BMOL-F4005  Travaux pratiques de biologie moléculaire 1 | Fabienne ANDRIS (Coordinator), Bruno ANDRE, Mélanie BOECKSTAENS, Louis DROOGMANS, Cyril GUEYDAN, Véronique KRUYS, Denis LAFONTAINE, Anna Maria MARINI, Maud MARTIN, David PEREZ-MORGA, Bernard ROBAYE, Carine VAN LINT, Laurence VAN MELDEREN and René WINTJENS
5 credits [practical work: 40h]  French

BMOL-F4008  Travaux pratiques de biologie moléculaire 2 | Fabienne ANDRIS (Coordinator), Eric BELLEFROID, Sabrina BOUSBATA, Dukas Juréna, Maud MARTIN, David PEREZ-MORGAL, Jacob SOUOPGUI, Laurence VAN MELDEREN and Benoît VANHOLLEBEKE
5 credits [practical work: 40h]  French

BMOL-F414  Scientific writing | Abel GARCIA-PINO (Coordinator) and Etienne MEYLAN
5 credits [practical work: 48h]  French

BMOL-F416  Expression génique | Cyril GUEYDAN (Coordinator), Véronique KRUYS, Denis LAFONTAINE and Carine VAN LINT
5 credits [lecture: 42h]  French

BMOL-F417  Communication inter-cellulaire (signalisation/intégration des signaux) | Benoît VANHOLLEBEKE (Coordinator) and Bernard ROBAYE
5 credits [lecture: 28h, seminars: 8h]  French

BMOL-F460  Organisation interne et physiologie de la cellule | Bruno ANDRE (Coordinator), Denis LAFONTAINE and Maud MARTIN
5 credits [lecture: 36h]  French

Cours spécifiques

BIOL-F4004  Didactique des sciences biologiques et biologie du secondaire | Jean-Christophe DE BISEAU D’HAUTEVILLE (Coordinator)
5 credits [lecture: 36h, tutorial classes: 16h, practical work: 8h]  academic year  French

PEDA-E510  Pédagogie et didactique, aspects généraux | Thomas BARRIER (Coordinator), Maud Delepière and Nathanaël FRIANT
5 credits [lecture: 60h]  French

STAG-F023  Stages et pratique réflexive | Jean-Christophe DE BISEAU D’HAUTEVILLE (Coordinator)
5 credits [seminars: 12h, work placement: 48h]  academic year  French

Cours optionnels

A total of ten credits chosen from the following

BMOL-F006  Microbiologie moléculaire | Carine VAN LINT (Coordinator), Mélanie BOECKSTAENS, Abel GARCIA-PINO, Dukas Juréna, Anna Maria MARINI and Laurence VAN MELDEREN
5 credits [lecture: 40h]  second term  French

BMOL-F009  CIVIS - Mobility Blend Immuno-oncology | Fabienne ANDRIS (Coordinator)
5 credits [lecture: 28h]  academic year  French

Focus Teaching

Bloc 2 | M-BMOLD | MA-BMOL

Tronc commun

MEMO-F510  Séminaires de recherche | Laurence VAN MELDEREN (Coordinator)
- 5 credits [seminars: 48h]
- first and second terms
- French

MEMO-F511  Travail bibliographique en Biologie moléculaire | Etienne MEYLAN (Coordinator)
- 10 credits [project: 48h]
- first and second terms
- French

MEMO-F517  Mémoire | Laurence VAN MELDEREN (Coordinator)
- 30 credits [mfe/tfe: 900h]
- first and second terms

Cours spécifiques

EDUC-E520  Aspects socio-historiques, psychologiques, culturels, éthiques et de neutralité de l'enseignement | Jose-Luis WOLFS (Coordinator), Sylviane BACHY, Camille Tilleul and Philippe VIENNE
- 5 credits [lecture: 60h]
- first and second terms
- French

STAG-F024  Stages et pratique réflexive II | Jean-François FLOT (Coordinator)
- 5 credits [work placement: 60h]
- academic year
- French

STAG-F025  Stages et pratique réflexive III | Jean-Christophe DE BISEAU D'HAUTEVILLE (Coordinator)
- 5 credits [work placement: 60h]
- academic year
- French
