Programme objectives
This master allows students to acquire a solid knowledge on EU integration as well as to develop a critical thinking on key European issues. It also offers opportunities to interact with European affairs practitioners and prepare their start as professionals.

This programme offers a specialised track "European politics and policies" that focuses on the functioning of the European Union. A second specialised track entitled "EU - ASIA" offers the possibility to complete a double degree (Master's level – 120 credits) with the University of Waseda in Japan. Students will spend the first academic year in one country and the second in the other. To complete the training they will write a dissertation in co-supervision (ULB / Waseda). This orientation offers solid knowledge of the historical, political, legal, economic and socio-cultural dimensions of European integration as well as of regional cooperation in Asia.

Programme's added value
- A high-level multidisciplinarity academic program supported by a specialized faculty
- A privileged location in Brussels, the capital of the European Union and headquarters of many political institutions
- A very international student body and faculty with a variety of identities, languages and national cultures represented
- A tradition of excellence in the field of European Studies since the IEE is one of the oldest Jean Monnet Centres of Excellence (i.e. since 1963) as well as a recognized forum for high-level debates on the EU and its future.

Teaching methods
Teaching is to combine training through lecture and practice. It notably emphasizes inter-sectoral contacts (e.g. negotiation simulations, field surveys, interactions with practitioners, internships). New technologies and e-learning are an integral component of the teaching provided to the students.

Job opportunities

Students can aspire to as many different careers as there are professions associated with Europe. Beyond EU and international institutions, they might apply for jobs in a myriad of consultancies, interest groups (including private firms and NGOs) or regions’ representation offices. Furthermore, at local and national level, most institutions nowadays include a EU affairs department. Finally, the Master gives access to a doctoral training for completing a PhD.
