

# Master in cybersecurity

## Focus Erasmus Mundus joint master in Cybersecurity (CYBERUS)

MA-SECU | M-SECUM | 2024-2025

The 2024-2025 programme is subject to change. It is provided for information purposes only.

### Programme mnemonic

MA-SECU

➤ Focus *Erasmus Mundus joint master in Cybersecurity (CYBERUS)*: M-SECUM

### Exists also in

➤ Focus *Cryptanalysis and Forensics*: M-SECUC

### Studies level

Master 120 credits

### Learning language

english

### Schedule

office hours

### Studies category / subcategory

Sciences and technics / Sciences and technics

### Campus

Solbosch

## Teaching methods

Students attend **interactive theoretical classes** and take part in **projects and challenges** that further add to the expertise and practical know-how required in the IT industry.

These projects will give students (**alone or in groups**) the opportunity to apply the concepts covered during the lectures, and to learn new material by solving proposed challenges.

Along with the practical implementation of these learning activities, students develop their **abilities (soft skills)** to write solid, scientific, and structured reports and documentation. In addition, they look into cybersecurity from the perspective of management and ethics.

The programme is organised around **five specific and complementary key disciplines**: (1) Cryptography, (2) Systems and Networks, (3) Legal, ethical, and human aspects, (3) Security management, and (5) Secure software engineering

**The first year** of the Master is dedicated to a **common set of courses**. Several seminars and elective courses ensure the **curriculum is dynamic and remains up to date**. For instance, 10 credits can be chosen as elective courses, selected from courses already taught in the participating academic institutions.

**In the second year**, half of the programme's credits are for courses in one of **two focuses**: 'system design and analysis', which is dedicated to the design and thorough analysis of secure systems, and 'corporate strategies', which is dedicated to more concrete applications. Both focuses are built on the **students' personal involvement and self-learning, through several projects**. A significant part of the skills involved is acquired during the **mandatory long-term work placement in a professional environment** (typically 12 weeks).

Students take part in **projects and challenges** that further add to the expertise and practical know-how required in the IT industry. They apply the concepts covered in lectures, and learn new material by solving proposed challenges.

At the end of the programme, students prepare a **Master's dissertation** under the supervision of a professor who is an active researcher in the field.

## Programme objectives

The Master in Cybersecurity trains students who will act as **researchers and / or professionals in information security**, security management, and security engineering in the many branches of the IT industry.

We want our graduates to have a **strong sense of ethics** and to be fully autonomous, able to self-teach, dedicated to their role in society, self-evolving throughout their careers, and to have a **high level of qualification in IT security**.

Courses in this Master are offered by **four academic partners** (Université Libre de Bruxelles, Université Catholique de Louvain, Université de Namur, and the Royal Military School) and **two higher education institutions** (Haute École Bruxelles-Brabant and Haute École Libre de Bruxelles), which jointly deliver a **single diploma**; classes are given in a rich and multidisciplinary environment.

## Succeed in your studies

### Choose

The information and guidance counsellors at the InfOR-études [<https://www.ulb.be/en/studies-info-desk-1>] service will help you choose your studies throughout the year.

### Succeed

Take part in preparatory courses [<https://www.ulb.be/en/studies-info-desk-1>] or get help to succeed [<https://www.ulb.be/en/studies-info-desk-1>], before or during your studies.

### Get help

Apply for financial aid, look for accommodation or a student job, get support [<https://www.ulb.be/fr/aides-services-et-accompagnement/aid-services-and-support-1>] for your specific needs.

## International/Openness

Many opportunities for a work placement or a study programme abroad (Erasmus exchange programme).

Courses in this Master are offered by **four academic partners** (Université Libre de Bruxelles, Université Catholique de Louvain, Université de Namur, and the Royal Military School) and **two higher education institutes** (Haute École de Bruxelles and Haute École Libre de Bruxelles), which jointly deliver a single diploma; classes are given in a rich, **multidisciplinary and multicultural environment**.

Collaborations with the industry and other European universities is a strong point of this cursus.

## Job opportunities

Our students are active in a wide variety of domains, ranging from telecommunications, software industry, public administrations, military, law enforcement, and banks, to national and international institutions.

Typical positions for cybersecurity experts are:

- > Chief Security Officer (CSO)
- > Law enforcement officer
- > Computer emergency response team member
- > Security architect
- > Network architect
- > Security analyst, consultant, and auditor
- > Forensics expert
- > Researcher

# Master in cybersecurity

## Focus Erasmus Mundus joint master in Cybersecurity (CYBERUS)

### Bloc 2 | M-SECUM | MA-SECU

## Cours obligatoires

ELEC-H423	<b>Mobile and wireless networks</b>   Jean-Michel DRICOT (Coordinator) ⌚ 5 credits [lecture: 36h, practical work: 24h] 📅 first term 🗣 English
ELEC-H550	<b>Embedded System Security</b>   Jan Tobias Mühlberg (Coordinator) ⌚ 5 credits [lecture: 24h, practical work: 36h] 📅 second term 🗣 English
INFO-F537	<b>Cryptanalysis</b>   Gilles VAN ASSCHE (Coordinator) ⌚ 5 credits [lecture: 24h, project: 48h] 📅 first term 🗣 English
INFO-Y119	<b>Forensics and reverse engineering</b>   Thibault Debatty (Coordinator) ⌚ 5 credits [lecture: 24h, practical work: 24h] 📅 first term 🗣 English
LANG-Y9021	<b>Français langue étrangère - Niveau A2 (F9)</b>   Eric Galiano (Coordinator) ⌚ 5 credits [lecture: 15h] 📅 first term 🗣 French
MEMO-F543	<b>Master thesis and internship in cybersecurity</b>   Olivier MARKOWITCH (Coordinator) and Jean-Michel DRICOT ⌚ 30 credits [work placement: 120h, mfe/tfe: 240h] 📅 second term 🗣 English

## Cours à options

Ou tout autre cours de MASTER avec l'accord du titulaire et du président de jury

### One course chosen from the following

GEST-S482 (optional)	<b>The digital firm</b>   Nicolas VAN ZEEBROECK (Coordinator) and Vincent LION ⌚ 5 credits [lecture: 36h, tutorial classes: 24h] 📅 first term 🗣 English
GEST-S706 (optional)	<b>Entrepreneurship</b>   Olivier WITMEUR (Coordinator) and Ant BOZKAYA ⌚ 5 credits [lecture: 24h] 📅 second term 🗣 English
INFO-F409 (optional)	<b>Learning dynamics</b>   Tom LENAERTS (Coordinator) ⌚ 5 credits [lecture: 24h, project: 60h] 📅 first term 🗣 English
INFO-H415 (optional)	<b>Advanced databases</b>   Esteban ZIMANYI (Coordinator) ⌚ 5 credits [lecture: 24h, tutorial classes: 24h, practical work: 12h] 📅 first term 🗣 English
INFO-H420 (optional)	<b>Management of Data Science and Business Workflows</b>   Dimitrios SACHARIDIS (Coordinator) ⌚ 5 credits [lecture: 24h, tutorial classes: 36h] 📅 first term 🗣 English
INFO-Y082 (optional)	<b>Distributed and mobile programming paradigms</b> ⌚ 6 credits [lecture: 26h, tutorial classes: 26h, project: 30h] 📅 first term 🗣 English
INFO-Y115 (optional)	<b>Secure software design and web security</b>   Romain ABSIL (Coordinator) ⌚ 5 credits [lecture: 30h, practical work: 20h] 📅 first term 🗣 English
POLI-D323 (optional)	<b>Introduction to EU Politics</b>   Nathalie BRACK (Coordinator) ⌚ 5 credits [lecture: 24h] 📅 first term 🗣 English
