## Programme's added value

The Faculty has at its disposal:

- > classrooms, laboratories, a gymnasium, and athletic equipment, all brand new;
- > teachers who are well-known in the world of athletics;
- > research units in the laboratory of motor sciences (involved in athletic performance, motor rehabilitation, and the study of physiological and cognitive abilities in extreme environments such as outer space).

## Teaching methods

Lecture classes, practical work, seminars, work placements/ internships.

## Job opportunities

This master provides all the skills necessary to work in the athletic field.

### Jury President

Alain CARPENTIER

### Jury Secretary

Stéphane BAUDRY

## Programme objectives

Graduates of this 60-credit master will be able to teach in the broad field of physical and athletic activities. To this end, the programme provides essential skills in a variety of areas: technical, tactical, physiological, but also nutritional and psychological.

This Master is mainly intended for foreign students who will later enrol in the study programmes required to become teachers in their respective countries. The Master in Motor Sciences with a specialisation in physical education does not include the classes or work placements/internships that are required to teach physical education in the Wallonia-Brussels Federation.

## Master in Motor skills : Physical Education (60 credits)

Courses are given as a combination of lecture classes, lab work in smaller groups, individual assignments, and work placements/internships. Work placements/Internships are completed in fitness clubs, sports clubs, etc., either in Belgium or abroad.

**Unique year** | MA60-EDPH
