

Master in Sociology

Focus Professional

The Master in Sociology provides students with the critical analysis skills necessary to analyse life within society and the challenges involved, with a view to contributing—beyond ready-made explanations—to explain how it is organised and how it functions, to inform citizens about the basics of the society in which they live, and to come up with answers to the questions that preoccupy public authorities, politicians, and decision-makers with regard to current social issues.

The Master in Sociology allows students to acquire both theoretical knowledge and the methodological tools used to gather data, which is an essential aspect of this discipline.

At the end of the programme, graduates will have acquired both general knowledge and more specialised knowledge in concrete fields (culture, work, social policy, urban policy, migration issues, education) and investigatory methods.

Master in Sociology

Focus Migration and Cultural Diversity

The Master in Sociology provides students with the critical analysis skills necessary to analyse life within society and the challenges involved, with a view to contributing—beyond ready-made explanations—to explain how it is organised and how it functions, to inform citizens about the basics of the society in which they live, and to come up with answers to the questions that preoccupy public authorities, politicians, and decision-makers with regard to current social issues.

The Master in Sociology allows students to acquire both theoretical knowledge and the methodological tools used to gather data, which is an essential aspect of this discipline.

At the end of the programme, graduates will have acquired both general knowledge and more specialised knowledge in concrete fields (culture, work, social policy, urban policy, migration issues, education) and investigatory methods.
