

Specialized Master in European Law

The Master's course includes a core part (European constitutional law, judicial protection in the EU, the law of external relations of the EU as well as two courses on the basics of European competition law and internal market).

In addition, students have the option to orient their course to a particular area of European law, be that 'European economic law' or the 'Area of Freedom, Security and Justice'.

Finally, students have to produce a master thesis (tfe) at the end of their studies in one of the three following forms:

- > TFE 'research' on an issue relating to European law;
- > Career-oriented TFE combined with an internship;
- > TFE in the form of participation in a moot court competition (European Law Moot Court Competition or another).

Unique year | MS-DREU
